

UNIQUE BLEND OF STRENGTH, COMFORT AND PROTECTIVE QUALITIES – SUITABLE FOR USE IN CONTROLLED ENVIRONMENTS

FEATURES & BENEFITS

AlphaGuard is the result of a leading-edge technology. Made from a multilayer SMS material, AlphaGuard has a unique blend of physical properties that provides both the user and your production environment with a comfortable and efficient garment. This SMS coverall is a very breathable and comfortable material for the wearer while providing a high level of filtration efficiency for your environment. A low particle count adds another measure of environmental protection for your processes.

AlphaGuard material is not recommended for use with chemicals. An elastic back gathers the loose material in an effort to eliminate snags while reducing the billowing effect that can release particles into the environment.

Construction Details:

Two styles and two colors (white and blue) to choose from: coverall with AquaTrak® boots for added slip and fall protection and a standard coverall with elastic wrist, ankle and back. Both configurations have strong, stress-resistant serged seams.

Styles/Sizes

Part No.	Size
CV-74032-2	M
CV-74032-3	L
CV-74032-4	XL
CV-74032-5	2X
CV-74032-6	3X
CV-74032-7	4X
CV-74032-8	5X

Elastic wrist, ankle and back, serged seams, white, 25/case
