

CRITICAL COVER® GENPRO® SHOE COVERS

FEATURES & BENEFITS

GenPro shoe covers are lightweight and of value for use in general purpose environments or for visitors to your facility. The non-conductive polypropylene shoe covers provide a moderate barrier to fluids, particulates and contamination. The tread on the bottom provides excellent traction. Different thread colors around the opening provide convenient size identification.

This category of shoe cover is for use in non-hazardous environments only.

Construction Details:

Elastic top and strong, stress-resistant serged seams.
