

# Critical Cover® Coverall® & Combo® Face Shields/Combo Masks & Shield

## CRITICAL COVER® COVERALL® FULL & HALF FACE SHIELDS *LIGHT SPLASH PROTECTION*

### FEATURES & BENEFITS

When you need total facial splash protection, choose the Coverall® face shield. The face shield's wrap-around design provides the wearer with great peripheral vision while acting as a protective shield against non-hazardous liquid splash and light particles in a Lab or Controlled Environment. The Coverall® face shield is not ANSI Z87 rated for eye protection. You can wear the lightweight shield comfortably for long periods and it fits easily over prescription glasses or protective eyewear. A double-sided anti-fog coating reduces the possibility of fogging in high humidity environments. For safe working conditions, the face shield is low distorting and 100% optically clear while a soft polyurethane foam headband securely positions the device on the wearer.

Available in two styles: full face shield and half face shield. Also available with an adjustable Velcro® band or elastic Comfort headband. Individually packaged.

#### Coverall Full Face Shields Styles/Sizes
